Studies will commence in September 2019.

The program’s structure has 14 learning modules spread over two years:

1. Half of the studies are held as a five-week module in which classes meet on Thursday afternoons and Friday mornings. Some courses are conducted over two consecutive weeks.

2. An intensive module is conducted over five or six consecutive full days within a single week. Typically, eight of the modules, evenly spread through the two years, are offered in this format.
